Web Developer

Passionate and driven Web Developer with 3 years of hands-on experience in creating dynamic, responsive, and visually appealing websites and applications. With a deep enthusiasm for coding and problem-solving, I am committed to developing innovative solutions that enhance user experience and drive business success. Proficient in both front-end and back-end technologies, I am eager to contribute my technical skills and creative approach to a forward-thinking team that values continuous learning and collaboration.

WORK EXPERIENCE

Weeshr • Lagos

web developer • Part-time

- Designed and developed responsive, user-centric websites and web applications using React, JavaScript, and CSS, enhancing user engagement by 20%.
- Increased website performance by the creation and integration of micro-services, resulting in improved user experience and customer satisfaction.
- Experienced in developing secure, scalable applications using Spring Boot and Spring Security.
- Implemented SEO best practices across all projects, leading to a 20% improvement in organic search rankings for client sites.
- Worked with PostgreSQL databases, managing data models, writing complex queries, and ensuring data integrity

Seamfix Ltd • Lagos

Web Developer • Internship

- Assisted in the development of dynamic websites and web applications, focusing on front-end technologies such as HTML, CSS, React and JavaScript.
- Optimized website performance for faster loading times and improved user engagement.
- Contributed to the development of back-end services using Node.js and Express, building RESTful APIs to support front-end functionality.
- Performed rigorous testing and debugging to ensure the reliability and stability of web applications before deployment.
- Engaged in regular code reviews and collaborative problem-solving sessions, contributing to the continuous improvement of the development process.
